IEEE/ACM International Conference on Automated Software Engineering (ASE)

h5-index: **34**   h5-median: **50**

#9 Software Systems

Title / Author	Cited by	Year
Parseweb: a programmer assistant for reusing open source code on the web S Thummalapenta, T Xie Proceedings of the twenty-second IEEE/ACM international conference on ...	151	2007
Towards automatic model synchronization from model transformations Y Xiong, D Liu, Z Hu, H Zhao, M Takeichi, H Mei Proceedings of the twenty-second IEEE/ACM international conference on ...	94	2007
Modeling bug report quality P Hooimeijer, W Weimer Proceedings of the twenty-second IEEE/ACM international conference on ...	88	2007
Feature location via information retrieval based filtering of a single scenario execution trace D Liu, A Marcus, D Poshyvanyk, V Rajlich Proceedings of the twenty-second IEEE/ACM international conference on ...	85	2007
Heuristics for Scalable Dynamic Test Generation J Burnim, K Sen Proceedings of the 2008 23rd IEEE/ACM International Conference on Automated ...	84	2008
Type-Checking Software Product Lines-A Formal Approach C Kastner, S Apel Automated Software Engineering, 2008. ASE 2008. 23rd IEEE/ACM International ...	79	2008
Exploring the neighborhood with dora to expedite software maintenance E Hill, L Pollock, K Vijay-Shanker Proceedings of the twenty-second IEEE/ACM international conference on ...	64	2007
Directed test generation using symbolic grammars R Majumdar, RG Xu Proceedings of the twenty-second IEEE/ACM international conference on ...	58	2007
Generating and Evaluating Choices for Fixing Inconsistencies in UML Design Models A Egyed, E Letier, A Finkelstein Automated Software Engineering, 2008. ASE 2008. 23rd IEEE/ACM International ...	57	2008
Test-Suite Augmentation for Evolving Software R Santelices, PK Chittimalli, T Apiwattanapong, A Orso, MJ Harrold Automated Software Engineering, 2008. ASE 2008. 23rd IEEE/ACM International ...	57	2008
Spectrum-Based Multiple Fault Localization R Abreu, P Zoeteweij, AJC van Gemund Automated Software Engineering, 2009. ASE'09. 24th IEEE/ACM International ...	56	2009
Extraction of bug localization benchmarks from history V Dallmeier, T Zimmermann Proceedings of the twenty-second IEEE/ACM international conference on ...	55	2007
An automated approach to monitoring and diagnosing requirements Y Wang, SA McIlraith, Y Yu, J Mylopoulos Proceedings of the twenty-second IEEE/ACM international conference on ...	53	2007
Model checking concurrent linux device drivers T Witkowski, N Blanc, D Kroening, G Weissenbacher Proceedings of the twenty-second IEEE/ACM international conference on ...	53	2007
Context-aware statistical debugging: from bug predictors to faulty control flow paths L Jiang, Z Su Proceedings of the twenty-second IEEE/ACM international conference on ...	52	2007
Model Checking of Domain Artifacts in Product Line Engineering K Lauenroth, K Pohl, S Toehning Automated Software Engineering, 2009. ASE'09. 24th IEEE/ACM International ...	51	2009

[UMLtoCSP: a tool for the formal verification of UML/OCL models using constraint programming](#) J Cabot, R Clarisó, D Riera Proceedings of the twenty-second IEEE/ACM international conference on ...	50	2007
[A buffer overflow benchmark for software model checkers](#) K Ku, TE Hart, M Chechik, D Lie Proceedings of the twenty-second IEEE/ACM international conference on ...	50	2007
[Adaptive Random Test Case Prioritization](#) B Jiang, Z Zhang, WK Chan, TH Tse Automated Software Engineering, 2009. ASE'09. 24th IEEE/ACM International ...	47	2009
[Concolic testing](#) K Sen Proceedings of the twenty-second IEEE/ACM international conference on ...	47	2007
